[Hussein Salehalhajji](#) 

SUMMARY

Highly skilled and motivated IT Engineer with expertise in front-end development, website development, and IT support. Seeking a challenging position in a dynamic organization where I can utilize my technical skills and contribute to the growth and success of the company.

Work Experience

Front-End Developer

Dubai UAE

2023-Present

TB International

As a Front End Developer, I specialize in designing and implementing single-page applications using React. Proficient in crafting visually appealing user interfaces, I leverage CSS and Ant Design to ensure a polished and intuitive user experience. My role involves close collaboration with backend developers to maintain seamless API integrations through Axios. Additionally, I bring expertise in optimizing page performance. Beyond React, I contribute to Vue.js projects, employing TypeScript and Axios to enhance the functionality and maintain the integrity of APIs.

Front-End Developer

Damascus-Syria

2022-2023

United Group

Developed and maintained web applications using React JS, ensuring optimal performance, scalability, and usability. Collaborated with designers and backend developers to implement pixel-perfect and responsive UI/UX designs. Integrated third-party APIs and optimized website performance for enhanced user experience. Implemented state management using Redux, improving code maintainability and reducing bugs.

Websits Developer

Damascus-Syria

2020-2022

Common Compony

Built custom WordPress themes and plugins, tailored to clients' specific requirements. Developed e-commerce websites on the Shopify platform, including theme customization and payment gateway integration. Collaborated with clients to understand their business needs and deliver high-quality web solutions. Implemented responsive designs, optimized website performance, and ensured cross-browser compatibility. Provided ongoing maintenance and support for clients' websites, addressing any issues or updates.

IT Support Technician

Damascus-Syria

2019-2020

AI-Malle institute

Provided technical support and assistance to end-users regarding hardware, software, and network-related issues. Assisted in the installation, configuration, and maintenance of computer systems, printers, and software applications. Documented troubleshooting procedures, known issues, and resolutions to build a knowledge base for efficient issue resolution. Assisted in troubleshooting network connectivity issues and resolved LAN and WLAN-related problems. Conducted system updates and applied patches to ensure software applications and systems were up to date.

IT Help Desk

Damascus-Syria

2018-2019

AI-Omar Industry

Managed and prioritized help desk tickets using a ticketing system, accurately documenting issues, resolutions, and follow-up actions. Installed, configured, and maintained hardware and software, including operating systems, applications, and peripherals. Participated in on-call rotations to provide after-hours support for critical issues. Assisted with network connectivity and troubleshooting, including LAN, WAN, and wireless networks.
